California Farmland Conservancy Program	The California Farmland Conservancy Program (CFCP) seeks to encourage the long-term, private stewardship of agricultural lands through the voluntary use of agricultural conservation easements. The CFCP provides grant funding for easement and planning projects that support agricultural land conservation statewide. This funding is for planning grants and contracts to prepare land trusts for the conservation work associated with existing and future sources of funding for farmland and rangeland protection. Activities to increase land trust capacity could include training and development, workshops for land trusts on various conservation issues, and workshops for interested land landowners on the easement process. Activities could also include the development of agricultural conservation white papers, advice papers, and best practices, or the development of guidance documentation on how to establish a new land trust, expand territory, or consolidate territory. Funding may be available to assist land trusts in the nation Land Trust Alliance's accreditation process to assure a high level of competency, improve their standing among landowners, increase the likelihood of securing donations, and reduce their insurance costs. California Energy Commission									
Geothermal Resources Development Account (GRDA)	The funds from this account come from revenues paid by geothermal developers for leases on federal land in California. Practically all aspects of geothermal research, resource development, demonstration, commercialization, planning, environmental enhancement and impact mitigation are eligible for funding.	Grant	Private entities, including individuals and private for-profit organizations; local jurisdictions including cities, counties, school districts and special districts, regional planning agencies, and public utility districts; EXCEPTION: any public utility that generates more than 50MW of electricity for sale is not eligible to apply.	Solicitations are generally offered every 2 to 3 years. The next full solicitation is anticipated in late 2018. The most recent solicitation was offered in October 2016, with a Notice of Proposed Awards issued in March 2017.	There is no maximum or minimum award level established. Awards vary according to the application requests and the amount of funds available during a specific solicitation. Electric Program Investment Charge (EPIC)	The Energy Commission is one of four administrators of energy innovation funded by the Electric Program Investment Charge. The other administrators are the state's three largest investor-owned utilities: Pacific Gas and Electric Company, San Diego Gas & Electric Company, and Southern California Edison Company. The Electric Program Investment Charge was created to fund public interest investments in clean energy technologies and approaches for the benefit of electricity ratepayers of California's three largest electric investor-owned utilities.	Grant	Private and public entities, educational facilities, research organizations, national laboratories.	A solicitation schedule has been posted on the Energy Commission Research page, and solicitations are continuously released throughout the year.	Funding will vary, but project funding levels are expected to range between \$250,000 and \$5 million.	The California Public Utilities Commission established the purposes and governance for the Electric Program Investment Charge in Decision 12-05-037 for Rulemaking 11-10-003 on May 24, 2012. Low Carbon Fuel Research and Development Program	The Low Carbon Fuel R&D Program will pursue advancements in drop-in low-carbon fuel production derived from California's biobased feedstocks. The focus will be on renewable biofuels that can be produced to be fully compatible with existing infrastructure and vehicle technology. Using existing petroleum distribution systems further minimizes the overall cost of adoption.	Grant	Public entities, educational facilities, private entities, research organizations, national laboratories.	On-going (federal cost share solicitation remains open with the ability to add relevant federal funding opportunities) Applications for the traditional grant funding opportunity will be accepted in early 2017.	Varies by solicitation	General Fund from Budget Act of 2016	\$15 million	\$15 million by December 2017.	http://www.energy.ca.gov/contracts/other_research.html Contact: Aleecia Gutierrez Aleecia.Gutierrez@energy.ca.gov 916-327-1409
Public Interest Energy Research (PIER) - Natural Gas Funding	The funds are collected from natural gas ratepayers of California Investor Owned Utilities. These funds are administered by the California Energy Commission to provide public interest natural gas research programs. The Energy Commission's PIER program supports energy related research, development and demonstration for research not adequately provided by competitive and regulated markets and that will advance science and technology and will help meet California's energy policy goals.	Grant	Private and public entities, educational facilities, research organizations, national laboratories.	A solicitation schedule has been posted on the Energy Commission Research page, and solicitations are continuously released throughout the year.	Varies depending on solicitation. Recent solicitations have accepted awards up to \$2 million.	SB 1250 (Perata) Chapter 512, Statutes of 2006. California Forest Improvement Program (CFIP)	The California Forest Improvement Program (CFIP) is a forestry incentive program (cost share) that provides funds to forest landowners for management plans, RPF supervision, site preparation, tree planting, thinning, pruning, follow-up, release, land conservation, and improvement of fish and wildlife habitat. CFIP's purpose is to encourage private and public investments in forestlands and resources within the state to ensure adequate future high quality timber supplies, related employment and other economic benefits, and to protect, maintain, and enhance the forest resource for the benefit of present and future generations.	Grant (cost share) with landowners responsible for 10% to 25% of project cap rate costs	Landowners with more than 20 acres but less than 5,000 acres of forestland	Ongoing	Minimum acres 20	Timber Regulation and Forest Restoration Fund (TRFRF) and High Speed Rail Authority (HSR)	\$2.5 million (TRFRF) \$680,000 (HSR)	TBD	http://calfire.ca.gov/resource_mgmt/resource_mgmt_forestryassistance_cyip.php Contact: Stewart McMorrow Stewart.McMorrow@fire.ca.gov
Forest Legacy Program (FLP)	The purpose of the Forest Legacy Program (FLP) is to protect environmentally important forestland threatened with conversion to non-forest uses, such as subdivisions for residential or commercial development. To help maintain the integrity and traditional uses of private forestlands, the FLP promotes the use of permanent conservation easements. The program is entirely voluntary. Landowners who wish to participate may sell or transfer particular rights, such as the right to develop the property or to allow public access, while retaining ownership of the property and the right to use it in any way consistent with the terms of the easement. The agency or organization holding the easement is responsible for managing the rights it acquires and for monitoring compliance by the landowner. Forest management activities, including timber harvesting, hunting, fishing, and hiking are encouraged, provided they are consistent with the program's purpose.	Grant	Scope: forestlands Applicants: landowners	Greenhouse Gas Reduction Fund application begins December 2017. Federal funding is continuous but must be in before July 30 for the next available cycle.	TBD	Federal Forest Legacy Program and Greenhouse Gas Reduction Fund	Federal grant is renewed each year. Flood Corridor Program	This statewide program funds multi-objective, flood risk reduction projects that protect and restore floodplains and preserve or enhance wildlife habitat and agriculture. The program funds primarily non-structural projects, including acquiring and conserving floodplains, removing structures and precluding development in flood prone areas, and constructing earthen detention basins, along with restoring habitat and protecting agricultural land. Setback levees are also included when they enable a more naturally functioning floodplain. Flood Corridor Program includes three flood protection grant programs: <ul style="list-style-type: none"> • Flood Protection Corridor Program (Propositions 13 and 84); • Floodway Corridor Program (Proposition 1E); and • Central Valley Nonstructural Grants Program (Proposition 1E). 	Grant	Local public agencies (county, city, district or joint powers authority), nonprofit organizations, California Native American Tribes registered as a nonprofit organization or partner of a nonprofit or local public agency. Also, direct expenditure funding to other government agencies (local, state, or federal), nonprofit organizations, or contractors for projects proposed by DWR that are in the State's interest to fulfill program goals.	No further competitive solicitations anticipated. Direct funding may be used to utilize the remaining funding.	Maximum - \$5 million (which may be increased with Director's approval if necessary to achieve the goals of the program). No minimum.	Propositions 13, 84, and 1E	Approximately \$14 million	No further competitive solicitations anticipated. Land Acquisition Program	Statewide - This program acquires real property or rights in real property on behalf of the Department of Fish and Wildlife (CDFW) and also awards grants to other governmental entities or nonprofit organizations to acquire real property or rights in real property. All acquisitions are made on a "willing seller" basis pursuant to the appraised fair market value. The acquisition activities are carried out in conjunction with CDFW, which generally entails CDFW evaluating the biological values of the property through development of a Land Acquisition Evaluation (LAE, used for a single piece of property) or a Conceptual Area Protection Plan (CAPP, used for multiple properties). Once these evaluations are completed, they are submitted to CDFW's Regional Operations Committee for review and approval. If approved, they are sent to WCB with a recommendation to fund. Concurrently, the WCB meets with CDFW to evaluate and set acquisition priorities as new opportunities arise.
