BACKGROUND INFO

The mission of the Rural Media Arts and Education Project is to open cultural and educational access and build and strengthen community through the media arts. A public cinema builds community by creating dialogue and understanding among a diverse group of people; by showcasing local issues and by bringing together a participating audience of every age and socioeconomic background. Programs bring the community together on a regular basis in a shared artistic and cultural experience in which they are encouraged to question the media message and share ideas with each other.

The purpose of the CCHE projects is the stabilization, rehabilitation and renovation of the Old Masonic Hall in the historic district of downtown Mariposa, the new permanent venue for the Rural Media Arts and Education Project.

Renovation funded by CCHE includes foundation, structural work, new doors & windows, kitchen & bath, HVAC, paint, flooring & fire sprinkler system. The Round 4 project will allow further rehabilitation of the building's first floor, enabling it to provide much-needed rental income for the organization.
