Come join us for a ...

Salton Sea Management Program

Community Outreach Workshop

**Thursday, June 2nd, 3:00pm – 5pm**

**Palm Springs City Hall**

**3200 E Tahquitz Canyon Way**

**Palm Springs, CA 92262**

**Speaker: Bruce Wilcox, Assistant Secretary for**

**Salton Sea Policy, CA Natural Resources Agency**

The Salton Sea is shrinking, and in desperate need of a management solution. If no action is taken, there will be:

- Large increases in wind-blown dust and “rotten-egg” smells
- Increases in respiratory disease and associated concerns
- Significant impacts to migratory birds and other species

This is a Southern California **regional issue**. Public outreach workshops are being held in Imperial, Coachella, Riverside, Orange, and Los Angeles Counties to provide information and receive community feedback. Come participate to learn **how Salton Sea Management impacts Riverside County**.
