| Fire Prevention – California Climate Investments | Through the California Climate Investments (CCI) Fire Prevention Grant Program, CAL FIRE aims to reduce the risk of wildland fires to habitats and communities, while maximizing carbon sequestration in healthy wildland habitat and minimizing the uncontrolled release of emissions emitted by wildfires. | Grant | Local government, fire districts, community services districts, water districts, and special districts with SNA within their jurisdiction, certified local conservation corps, fire safe councils, or other 501c3 nonprofit organizations. | 19-19: Opened October 17, 2018, Proposals due December 19, 2018 at 3PM PST | $150,000-$1.5 million | California Climate Investments (CCI) - Forest Health and Fire Prevention Grant Programs. | Up to $155 million, shared with the Forest Health and Forest Legacy grant programs. | Up to $155 million, shared with the Forest Health and Forest Legacy grant programs. | fire.prevention@fire.ca.gov  
  Contact: Scott Witt  
  FPGrants@fire.ca.gov |
| Forest Legacy Program (FLP) | The purpose of the Forest Legacy Program is to protect environmentally important forest land threatened with conversion to non-forest uses. Protection of forest through this program ensures California's forests continue to provide such benefits as sustainable timber production, wildlife habitat, recreation opportunities, watershed protection and open space. Intact forests also contribute significantly to the storage of carbon, and protection helps to avoid conversion to non-forest uses that would result in greenhouse gas emissions. | Grant | Landowners of working forest and rangelands, where the property is managed for the production of forest products and traditional forest uses are maintained. | 19-20: Solicitation is expected Summer/Fall 2019 | Federal program: Land and Water Conservation Fund | State program: California Climate Investments (CCI) - Forest Health and Fire Prevention Grant Programs. | Up to $155 million, shared with the Forest Health and Fire Prevention Grant programs. | Up to $155 million, shared with the Forest Health and Fire Prevention Grant programs. | fire.prevention@fire.ca.gov

| California Forest Improvement Program (CFIP) | California Forest Improvement Program (CFIP) program encourages private and public investment in, and improved management of, California forest lands and resources. This focus of CFIP is to ensure adequate high quality timber supplies, related employment and other economic benefits, and the protection, maintenance, and enhancement of a productive and stable forest resource system for the benefit of present and future generations. Cost-shared activities include management planning, site preparation, tree purchase and planting, timber stand improvement, fish and wildlife habitat improvement, and land conservation easements. | Grant | Private and public ownerships containing 20 to 5,000 acres of forest land. | Ongoing | N/A | Timber Regulation and Forest Restoration Fund (TRRFRF), High Speed Rail Authority (HSR), Federal Funds, California Climate Investments (CCI) - Forest Health and Fire Prevention Grant Programs. | $1.5 million | $1.5 million | forest.prevention@fire.ca.gov

### Endangered Species Conservation and Recovery Program

**Grant Program:** Endangered Species Conservation and Recovery Program (Nontraditional Section 6)

- **Program Summary:** The Endangered Species Habitat Conservation Plan Land Acquisition (HCP) Grant Program provides funding to states and territories for the acquisition of threatened and endangered species habitat in support of approved HCPs. Grants do not fund any mitigation required of an HCP permittee, but are instead intended to support land purchases that complement actions associated with HCP.

#### Program Details:
- **Grant Type:** Grant
- **Who is Eligible to Apply:** State and local government agencies; Native American tribal organizations.
- **Application Cycle Begins:** Varies - none at this time
- **Max/Min Award Amounts:** Varies by year depending on federal allocation.
- **Funding Source:** Cooperative Endangered Species Conservation Fund (CESCF)
- **How much funding is left to award in total?:** Unknown at this time
- **Contact Information:** [https://wildlife.ca.gov/Conservation/Planning/NontraditionalSection6](https://wildlife.ca.gov/Conservation/Planning/NontraditionalSection6)

#### Funded Activities:
- Habitat restoration, species recovery plans, projects for wildlife species listed as threatened, endangered, candidate, or recently recovered species under the federal endangered species act (ESA) on non-federal lands.

#### Funding Details:
- **2017 allocation:** $5.08 million
- **2018 allocation:** $2.5 million

#### Contact Information:
- Erin Chappell: (916) 445-3685, Erin.Chappell@wildlife.ca.gov
- Sara Kern: (916) 651-1192, Sara.Kern@wildlife.ca.gov

### State Wildlife Grants (SWG)

**Grant Program:** State Wildlife Grants (SWG)

- **Program Summary:** The State Wildlife Grant Program provides federal grant funds to states for the development and implementation of programs for the benefit of wildlife and their habitat, including species that are not hunted or fished. The program funds conservation actions for the wildlife species of greatest conservation need identified in California’s State Wildlife Action Plans.

#### Program Details:
- **Grant Type:** Grant
- **Who is Eligible to Apply:** State and local government agencies; institutions of higher education, including public, private, state colleges and universities; 501(c)(3) nonprofit organizations; Native American tribal organizations.
- **Application Cycle Begins:** Varies - none at this time
- **Max/Min Award Amounts:** Varies by year depending on federal allocation.
- **Funding Source:** Cooperative Endangered Species Conservation Fund (CESCF)
- **How much funding is left to award in total?:** Unknown at this time
- **Contact Information:** [https://wildlife.ca.gov/Grants/State-Wildlife-Grants](https://wildlife.ca.gov/Grants/State-Wildlife-Grants)

#### Funded Activities:
- Notice of Availability November/December.

#### Funding Details:
- **2017 allocation:** $20.8 million
- **2018 allocation:** $2.5 million

#### Contact Information:
- Contact: Erin Chappell Erin.Chappell@wildlife.ca.gov

### Big Game Management Account (BGMA) Grant Program

**Grant Program:** Big Game Management Account (BGMA) Grant Program

- **Program Summary:** To promote programs and projects beneficial to big-game species in California.

#### Program Details:
- **Grant Type:** Nonprofit organizations
- **Who is Eligible to Apply:** Nonprofit organizations
- **Application Cycle Begins:** Call for proposals in February; final recommendations to Big Game Management Account Committee & Executive team in April; final awards announced by May 1.
- **Max/Min Award Amounts:** None
- **Funding Source:** Fish and Game Preservation Fund, Big Game Management Account (FSC Section 3963)
- **How much funding is left to award in total?:** Approximately $500,000 remaining after PSN review
- **Contact Information:** Karl Lewis Karl.Lewis@wildlife.ca.gov (916) 445-3799

### Program Name: DBW Local Assistance
**Boat Launching Facility Grant Program**

In accordance with Section 72.5 of the Harbors and Navigation Code, the Boat Launching Facility (BLF) grants are provided to local government agencies for the construction or improvement of boat launching ramps, restrooms, parking lots for vehicles and boat trailers, utilities, landscaping, irrigation, and ancillary items. Also included in the grant are monies to pay for engineering, construction inspection, permits from regulatory agencies, special studies, contract advertising, construction contingency, and other project related costs.

The primary purpose of the grant is to provide and improve access to California’s waterways by the recreational boating public using trailer able watercraft.

<tr>
<td>DBW Beach Erosion Control and Public Beach Restoration Programs</td>
<td>Sections 85 through 87.3 of the Harbors and Navigation Code authorize the Division to study erosion problems; act as shore protection advisor to all agencies of government; and plan, design and construct protective works when funds are provided by the Legislature. The Rivers and Harbors Act of 1962, as amended, allows DBW to participate in beach erosion control projects undertaken by the U.S. Army Corps of Engineers. Generally speaking, the Beach Erosion Control program funds projects that provide a hard structure solution (seawalls, revetment, etc.) to resisting erosive wave forces. The Public Beach Restoration program funds beach nourishment projects to restore or widen beaches that will reduce wave energy and run-up, thereby reducing the erosive power of ocean waves.</td>
<td>Grant</td>
<td>Local government agencies.</td>
<td>Applications due February 1 for consideration in the FY2021 State budget</td>
<td>No minimum of maximum.</td>

| California Water Commission | | | | | | | | | |
| Water Storage Investment Program | Proposition 1 continuously appropriated $2.7 billion to the California Water Commission (Commission) for investments in the public benefits of specific water storage projects. The Commission will fund the public benefits of these projects through the Water Storage Investment Program. Eligible projects must provide public benefits - ecosystem improvement, water quality improvement, flood control, emergency response, recreation - and provide measurable benefits to the Delta ecosystem or its tributaries. At least 50% of funded public benefits must be ecosystem benefits. | Grant | Public agencies, nonprofit organizations, public utilities, federally recognized Native American tribes, state Native American tribes listed on the Native American Heritage Commission’s California Tribal Consultation List, and mutual water companies. | Applications were due August 2017; the Commission does not anticipate conducting another round of funding. | The maximum award cannot exceed 50% of the project’s capital cost. The maximum award must be at least 50% ecosystem benefits. There is no minimum. | Proposition 1 | $2.7 billion | The Commission made maximum conditional eligibility determinations (MCEDs) in July 2018. Applicants must complete various statutory and regulatory requirements (CEQA, permits, non-state requirements) to schedule a final award hearing. | https://cwc.ca.gov/Water-Storage |

| California Department of Water Resources | | | | | | | | | |
| Flood Corridor Program | This statewide program funds multi-objective, flood risk reduction projects that protect and restore floodplains and preserve or enhance wildlife habitat and agriculture. The program funds primarily non-structural projects, including acquiring and conserving floodplains, removing structures and precluding development in flood prone areas, and constructing wetland detention basins, with a focus on restoring habitat and protecting agricultural land. Setback levees are also included when they enable a more naturally functioning floodplain. The Flood Corridor Program includes these flood protection grant programs:  
+ Flood Protection Corridor Program (Prop 13 and 84)  
+ Floodway Corridor Program (Prop 1E); and  
+ Central Valley Nonstructural Grants Program (Prop 1E). | Grant | Local public agencies (county, city, district or joint powers authority), nonprofit organizations, California Native American Tribes regulated as a nonprofit organization or partner of a nonprofit or local public agency. Also, direct expenditure funding to other government agencies (local, state, or federal), nonprofit organizations, or contractors for projects proposed by DWR that are in the State’s interest to fulfill program goals. | No further competitive solicitations anticipated. Direct funding may be used to utilize the remaining funding. | Maximum - $5 million (which may be increased with Director’s approval if necessary to achieve the goals of the program) No minimum. | Propositions 13, 84, and 1E | $0 | No further competitive solicitations anticipated. Direct funding may be used to utilize the remaining funding. | https://www.water.ca.gov/Work-With-Us/Grants-And-Loans/Flood-Corridor-Program |

Flood Control Subventions Program (FCSP)

- **Implementation:** Flood control projects (minor or major) and Watershed Protection Flood Prevention Projects.
- **Type:** Funds (Claims Reimbs.)
- **Eligibility:** Local public agencies with federal projects that are not part of the State Plan of Flood Control.
- **Application Cycle:** Ongoing
- **Max/Min Award Amounts:** $70 million
- **Funding Source:** Original solicitation – $93.1 million. Remaining funds of ~$40 million available for additional applications.
- **How much funding is left to award in total?** No further competitive solicitations anticipated.
- **Contact Information:** Richard Mills richard.mills@water.ca.gov 916-651-0715

Water Desalination Grant Program

- **Program Name:** The Program's purpose is to help increase water supplies by providing funding to local agencies for the planning, design, and construction of municipal water facilities requiring the removal of salt to render brackish or ocean water sources safe to drink. It also provides matching funds for desalination design or research pilot projects. The program is based on at least 50 percent local funding match for all project types with exception for disadvantaged communities.
- **Program Summary:** The Program's purpose is to help increase water supplies by providing funding to local agencies for the planning, design, and construction of municipal water facilities requiring the removal of salt to render brackish or ocean water sources safe to drink. It also provides matching funds for desalination design or research pilot projects. The program is based on at least 50 percent local funding match for all project types with exception for disadvantaged communities.
- **Type:** Grant
- **Eligibility:** Public agencies including local and State government agencies, public utilities, mutual water companies, federally recognized Indian Tribes, State Indian Tribes on the Native American Heritage Commission’s consultation list, and non-profit organizations. Universities and colleges incorporated as public institutions or non-profit organizations may also apply.
- **Application Cycle:** Ongoing
- **Max/Min Award Amounts:** Up to $10 million per grant, depending on project type.
- **Funding Source:** Original solicitation – $93.1 million. Remaining funds of ~$40 million available for additional applications.
- **How much funding is left to award in total?** No further competitive solicitations anticipated.
- **Contact Information:** Steve Giambone Steven.Giambone@water.ca.gov 916-653-0722

Safe Drinking Water - Contaminant Removal Technologies - Pilot and Demonstration Projects

- **Program Name:** Contaminant treatment or removal technology pilot and demonstration studies.
- **Program Summary:** Grant
- **Type:** Grant
- **Eligibility:** Eligible applicants are public water systems under the regulatory jurisdiction of SWRCB.
- **Application Cycle:** Ongoing
- **Max/Min Award Amounts:** Up to $5 million per grant.
- **Funding Source:** Proposition 60 (Chapter 6 Section 76545(c))
- **How much funding is left to award in total?** $5 million available.
- **Contact Information:** Steve Giambone Steven.Giambone@water.ca.gov 916-653-0722

Safe Drinking Water - Contaminant Removal Technologies - Ultrapure Water and Ozone Treatment

- **Program Name:** Drinking water disinfecting projects using UV technology and ozone treatment.
- **Program Summary:** Grant
- **Type:** Grant
- **Eligibility:** Eligible applicants are public water systems under the regulatory jurisdiction of SWRCB.
- **Application Cycle:** Ongoing
- **Max/Min Award Amounts:** Up to $5 million per grant.
- **Funding Source:** Proposition 60 (Chapter 6 Section 76545(c))
- **How much funding is left to award in total?** $5 million remaining. 25% of funds will be allocated to disadvantaged communities.
- **Contact Information:** Steve Giambone Steven.Giambone@water.ca.gov 916-653-0722

San Joaquin River Water Quality Grant Program

- **Program Name:** Funded projects must reduce or eliminate discharges of subsurface agricultural drain water from the west side of the San Joaquin Valley for the purpose of improving water quality in the San Joaquin River and the Delta.
- **Program Summary:** Grant
- **Type:** Grant
- **Eligibility:** Local agencies, including, but not limited to, city, county, city and county, special district, joint powers authority (can include Federally recognized tribes), political subdivision, public utility, or a mutual water company. Other entities may collaborate with a local agency to apply for the grant.
- **Application Cycle:** Draft guidelines/PSP released August 7, 2015. Final guidelines/PSP released December 16, 2015. Last day for applications was March 4, 2016.
- **Max/Min Award Amounts:** No limit
- **Funding Source:** Proposition 84, Section 75029(a)
- **How much funding is left to award in total?** None. All funding was awarded in Summer 2018. No further competitive solicitations anticipated.
- **Contact Information:** Kristin Willitt kristin.willitt@water.ca.gov 559-230-3327

Small Community Flood Risk Reduction (SCFRR)

- **Program Name:** Projects to reduce flood risk in small communities in the Central Valley. Funds for feasibility studies, design, and construction of proactive repairs to flood control facilities of the State Plan of Flood Control (SPFC).
- **Program Summary:** Grant
- **Type:** Grant
- **Eligibility:** Local Agencies with Land Use Authority (cities/counties); Phase 1 Feasibility Study funding included evaluating SPFC facilities that protect small communities in the Central Valley designated by the CVPPP to have a High or Moderate-High Flood Risk. Phase 2 will fund prioritized (phase 1) projects to continue to design and implementation.
- **Application Cycle:** SCFRR Phase 1 application cycle completed in 2016 and 38 projects) approved award list was published in April 2017. Phase 2 PSP date to be confirmed.
- **Max/Min Award Amounts:** $600,000 per Small Community for the Phase 1; 50% cost share for costs above $600,000. Next awards will depend on fund availability and State determined flood risk reduction priorities for prioritized communities (at 50% State cost-share).
- **Funding Source:** Prop 1E
- **How much funding is left to award in total?** Phase 2 - Design and Implementation: Approximately $27 million.
- **Contact Information:** The next solicitations plan will be for Phase 2 Design and Implementation, date to be confirmed.

Regional Flood Management Planning  
**Program Name**: Regional Flood Management Planning (RFMP)  
**Program Summary**: The Regional Flood Management Planning (RFMP) effort seeks to work with local entities engage local stakeholders to assess existing information and data to better define site-specific needs and develop their regional vision for flood management over the next 30 years. The RFMP effort is intended to provide meaningful engagement by the Regional Partners in the Central Valley Flood Protection Plan (CVFPP) and maintain working relationships to develop a common understanding of regional flood issues and priorities. Formulate and assess flood management solutions and strategies that reflect the vision, feasibility projects, assess the performance of the projects, and develop a plan that reflects the vision of local entities in reducing flood risks in their region. DWR has provided providing guidance as well as technical and financial assistance to local agencies to prepare regional flood management plans that formulate and prioritize the proposed projects and strategies in each region. DWR continues to provide funding to engage Regional Partners in the CVFPP planning process. The RFMP goals are:  
- Encourage regional governance  
- Promote multibenefit solutions to flood problems  
- Identify solutions and set regional priorities  
- Assess cost/benefits of proposed solutions and set financial strategies to implement.  
**Grant and Loan Programs (as of January 2019)**:  
- **Grant**: A California local public agency with responsibility for flood management in the region that is a part of the area protected by the facilities of the SFPPC that is willing to participate in, coordinate, and collaborate with other interested parties in the region that are participating in the development of their RFMP.  
- **Application Cycle**: Ongoing since October 2012  
- **Max/Min Award Amounts**: Up to $15 million  
- **Funding Source**: Prop 1E  
- **How much funding is left to award in total?**: $2.4 million  
- **How much $ might be awarded in the next 6 months?**: Up to $2.4 million

State Water Resources Control Board

Water Recycling Funding Program  
**Program Name**: Water Recycling Funding Program  
**Program Summary**: The Program promotes the beneficial use of treated municipal wastewater (water recycling) in order to augment or offset fresh water supplies in California by providing technical and financial assistance to agencies and other stakeholders in support of water recycling projects and research.  
**Grants and Loans**: Grants and Planning - Public Agencies  
- **Construction - Public Agencies**: Continuously accepting applications.  
- **Construction Grants**: Planning - Proposition 13, Construction Grants: 65% of total construction-related costs (15% max) 
  - Construction Loans: Low interest loans with up to 30-year term based on credit review  
- **Planning Prop 13, Approximately $18.0 million total**: Planning Prop 13 grant: Approximately $8.0 million total  
  - Prop 1 loan: Approximately $105.0 million 
  - Prop 13 grant: $0.4 million 
  - Prop 1 loan: $105.0 million 
- **Planning Prop 13, Approximately $18.0 million total**: Planning Prop 13 grant: Approximately $8.0 million total  
  - Prop 1 loan: $105.0 million 
  - Prop 68: $0 (no appropriation for 18/19 FY)

<tr>
<td>Land Acquisition Program</td>
<td>Statewide - This program acquires real property or rights in real property on behalf of the Department of Fish and Wildlife (CDFW) and also awards grants to other governmental entities or nonprofit organizations to acquire real property or rights in real property. All acquisitions are made on a &quot;willing seller&quot; basis pursuant to the appraised fair market value. The acquisition activities are carried out in conjunction with CDFW, which generally entails CDFW evaluating the biological values of the property through development of a Land Acquisition Evaluation (LAE, used for a single piece of property) or a Conceptual Area Protection Plan (CAPP, used for multiple properties). Once these evaluations are completed, they are submitted to CDFW’s Regional Operations Committee for review and approval. If approved, they are sent to WCB with a recommendation to fund. Concurrently, the WICB meets with CDFW to evaluate and set acquisition priorities as new opportunities arise.</td>
