Numbers may not add or match to other statements due to rounding of budget details.

* Pursuant to PRC Section 75078 et seq., the Net Available for Appropriation amounts for the \$5.388 billion bond have been reduced by \$227,136,900 for bond issuance costs, other statewide bond costs, a Prop 1 reduction, a Prop 68 reduction and outyear amounts already committed by or proposed to the Legislature.

** Enacted appropriations shown net of reversions.

(a) This allocation was continuously appropriated by the bond act and shows a negative balance due to how the State Controller's Office tracks and reports continuous appropriations. The allocation will continue to be managed for typical year-to-year changes that impact the allocation balance and ensure the funds are not over-committed.

(b) This allocation over-commitment will be resolved, as appropriate, as part of the budget process.
