

Blue Ribbon Committee for the Rehabilitation of Clear Lake

Socioeconomic Subcommittee Meeting #1

October 28, 2020

1:00PM-3:00PM

Agenda

- ▶ Welcome and Introductions
- ▶ Confirm August 6 Meeting Summary & Review Action Items
- ▶ Updates
- ▶ UC Davis Center for Regional Change (CRC) Focus Group
- ▶ Discussion: Funding Sources
- ▶ Action Item Review and Next Steps
- ▶ ADJOURN

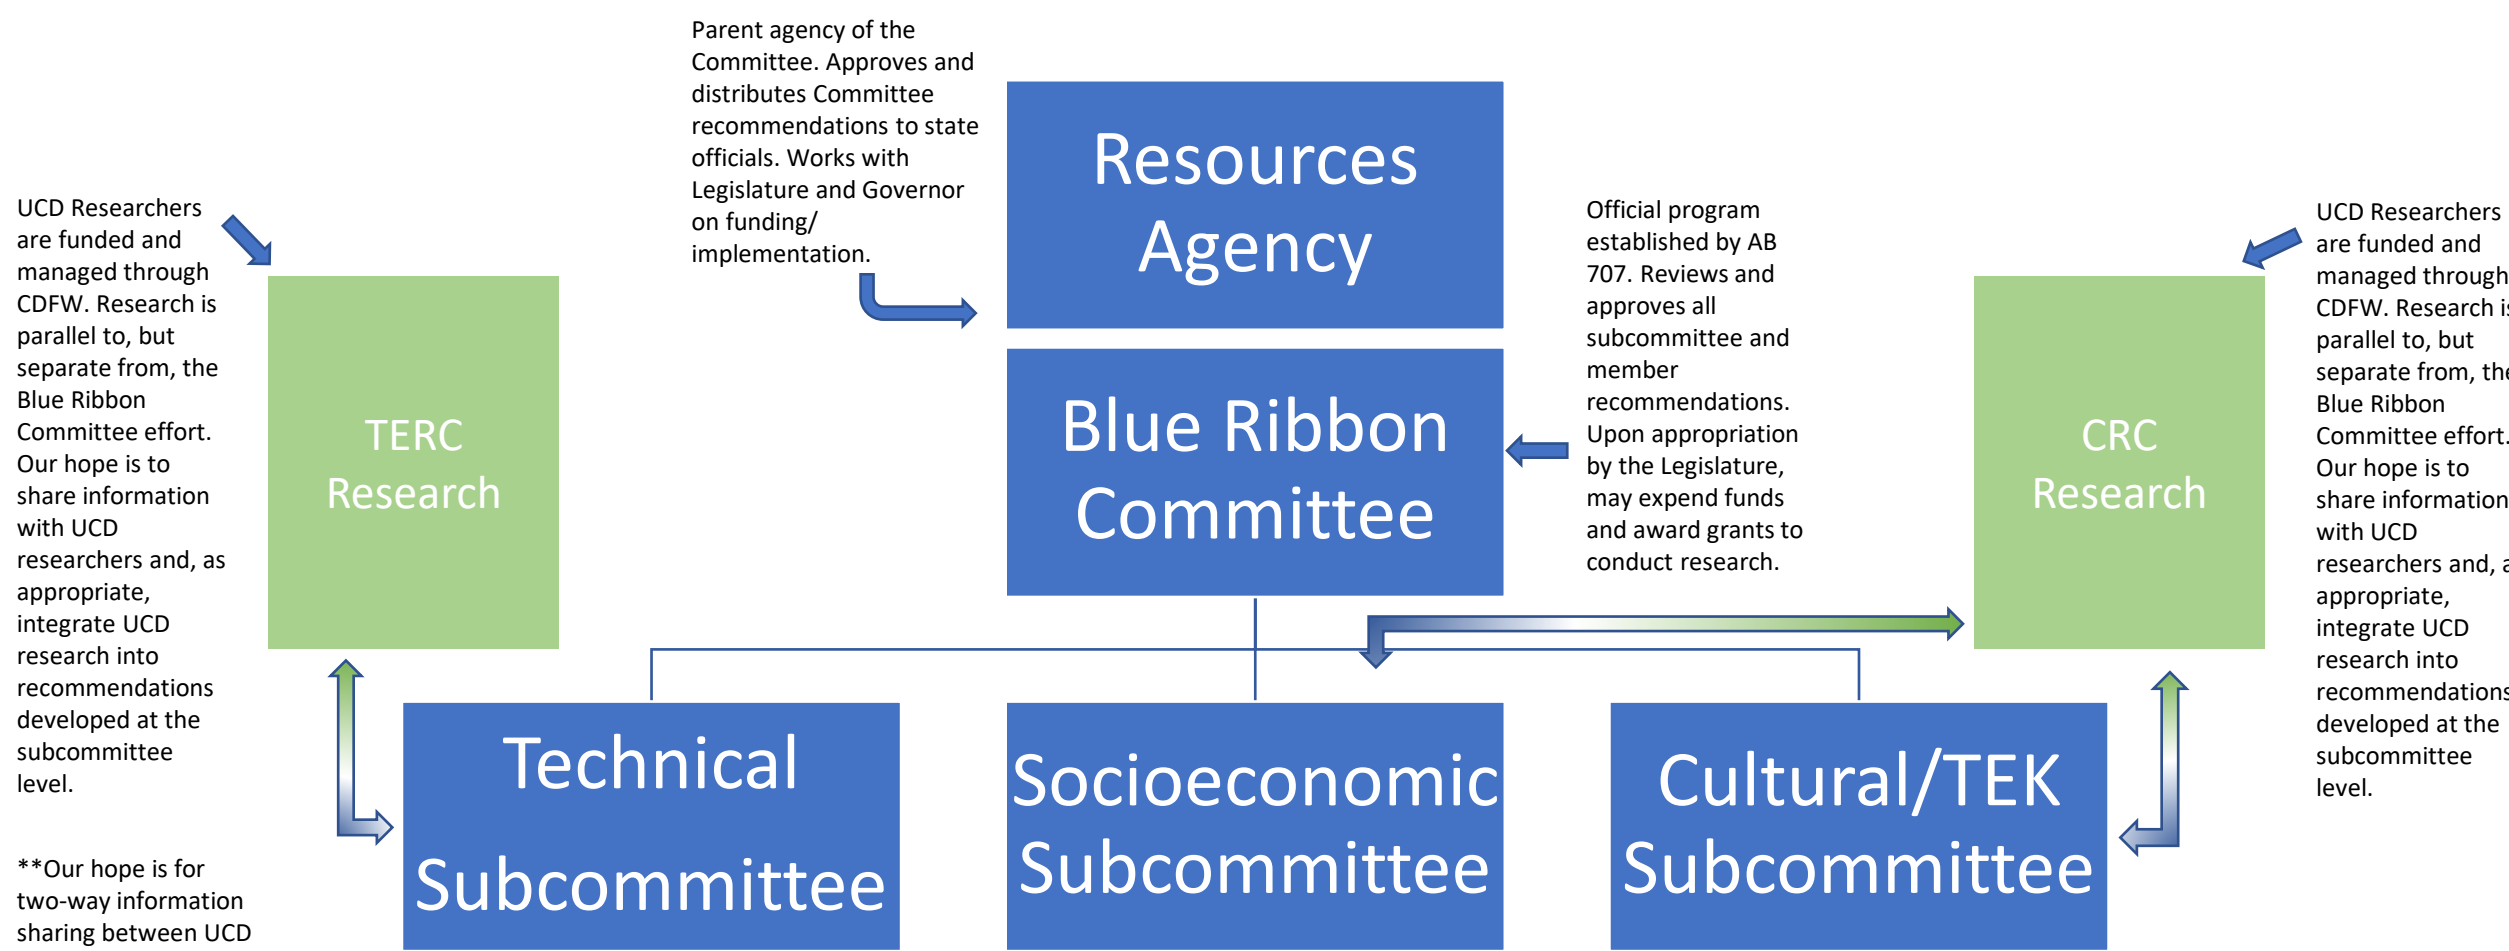

Welcome and Introductions

Confirm Meeting Summary & Review Action Items

Subcommittee Updates

- ▶ Committee Annual Recommendations Report
- ▶ UC Davis Center for Regional Change Research
- ▶ Local Updates

UCD Researchers are funded and managed through CDFW. Research is parallel to, but separate from, the Blue Ribbon Committee effort. Our hope is to share information with UCD researchers and, as appropriate, integrate UCD research into recommendations developed at the subcommittee level.

Our hope is for two-way information sharing between UCD and applicable subcommittees, but Committee staff understand that UCD is contractually obligated to create its own work products separate from Committee recommendations.

Parent agency of the Committee. Approves and distributes Committee recommendations to state officials. Works with Legislature and Governor on funding/implementation.

Official program established by AB 707. Reviews and approves all subcommittee and member recommendations. Upon appropriation by the Legislature, may expend funds and award grants to conduct research.

UCD Researchers are funded and managed through CDFW. Research is parallel to, but separate from, the Blue Ribbon Committee effort. Our hope is to share information with UCD researchers and, as appropriate, integrate UCD research into recommendations developed at the subcommittee level.

Subcommittees develop recommendations and serve as information gathering venues for projects or activities associated with environmental health, socioeconomic improvement, and cultural/TEK resources in the Clear Lake basin. All subcommittee recommendations must be formally approved by the Blue Ribbon Committee at a regularly scheduled meeting. Subcommittees are encouraged to reach out to other organizations or individuals on an "ad hoc" basis to bring in key expertise wherever needed. Additionally, the subcommittees are expected to "screen" recommendations from the other groups (e.g., the technical group could look at socioeconomic recommendations to make sure there is no adverse impact on environmental conditions).

UC Davis Center for Regional Change Focus Group Final question:

What new information, research, or activities (within the next year) would be useful to support these strategies?
What would supplement the work that's already been done?

Discussion: Funding Sources

2019 Recommendations & Funding Request

- ▶ Committee requested \$5.5 million in the 2020 budget for five recommendations:
 - ▶ Distributed hydrologic model of the upper watershed
 - ▶ Comprehensive monitoring plan for upper watershed
 - ▶ Bathymetric survey
 - ▶ Review of implementation and efficacy of existing programs/regulations/Best Management Practices (BMPs)
 - ▶ Public assessment of attitudes and behaviors impacting water quality

Proposed Funding Sources

- ▶ State grants
- ▶ State general fund
- ▶ Federal grants
- ▶ Private foundations
- ▶ National Science Foundation
