

Public Meeting Notice

Stockton Regional SB 905 Public Meeting: Developing the Framework for Governing Agreements

The California Natural Resources Agency (CNRA) in cooperation with the Department of Conservation (DOC), is hosting an in-person meeting related to developing the process surrounding governing agreements requiring two or more tracts of land overlying the same geologic storage reservoir or reservoirs for purposes of managing, developing, and operating a carbon sequestration project. This meeting builds off the kick-off webinar held September 19, 2023.

- Date: Wednesday, October 4th, 2023
- Time: 6:00 pm - 8:00 pm (Doors open at 5:30)
- Location: County of San Joaquin Robert J Cabral Agricultural Center
2101 E. Earhart Ave. Suite 100, Stockton, California, 95206

Spanish interpretation will be provided as well as food and activities for children.

The October 4th workshop will begin with a presentation on options other states have considered to answer the following questions:

1. What percentage and what kinds of rights holders should the framework require for a pore space agreement to move forward?
2. How could the framework ensure transparency and fairness in contracting?
3. Who would hold liability for long-term maintenance and safety of the sequestration site under the framework?
4. How could the framework determine what compensation is fair for parties to the agreement and for parties who did not agree
5. How could the framework ensure that neighboring communities benefit from this initiative?

You will then be invited to select the two topics that you are most interested in discussing in a breakout group, and you will be able to attend both sequentially. Then, participants will return to the plenary to learn the next steps. The workshop will close with time for open Q&A and public comment.
