NOTICE OF FINAL DECISIONS TO REGISTER PESTICIDE PRODUCTS AND WRITTEN EVALUATION

Pursuant to Title 3, California Code of Regulations section 6255, the Director of the Department of Pesticide Regulation (DPR), files this Notice of Final Decisions to Register Pesticide Products with the Secretary of the Resources Agency for posting. This notice must remain posted for a period of 30 days for public inspection. Between the time DPR posts a proposed registration decision for public comment and DPR makes a final decision regarding the product, non-significant changes may be made to the product label (e.g., revising the product name, changing a master label to an end-use marketing label, correcting typographical errors). If the changes are not significant, DPR will not re-notice the product for public review and comment. However, if significant changes are made to the product label that substantially affect DPR's analysis on direct or indirect significant adverse environmental or human health impacts that can reasonably be expected to occur from the proposed decision, DPR will re-notice the product label for public review and comment.

In addition, for any product that is posted proposed to register as a conditional registration, the registrant may address the conditions of registration by providing the appropriate data or modifying the product label (e.g., remove use site, add "not for use in California" to a use site) during the posting period. If the registrant adequately addresses the conditions of registration during the posting period and the resulting change to the product label is not significant such that DPR must re-post the product label for review and public comment, DPR will post the product below, but will no longer have a "conditional" designation by the registration type.
