Subject: Fwd: Scary Tunnel Leadership Failure - LFraysseth public comment
Date: Thursday, April 8, 2021 6:36:53 PM
Attachments: [Water Contractor Contributions.xlsx](#)

Dear Commissioners, Staff and the Public,

Please add this email to the 21 April 2021 CWC meeting agenda under Public Comment.

This is my 39th Public Comment to the California Water Commission.

8 months ago I asked the Governor and you to fire Delta Conveyance Design and Construction Authority Executive Director Kathryn Mallon. I am happy to read today Kathryn has been terminated. https://sacramento.newsreview.com/2021/04/08/delta-tunnel-authority-changes-leaders-as-newsom-fights-the-recall-by-turning-to-billionaire-champions-of-the-project/?fbclid=IwAR23VBmN_A1pT7aFGEM_zeivbtVetELVimRsir9FsM0YnoEkgqVvvoiNWZQ

I plan to vote "Yes" for the recall of Governor Newsom and as during the Gray Davis recall if I am given the option to vote for a "Bustamente" Democratic candidate I will vote for the Democrat.

I am disappointed in Governor Newsom's recent appointment to the California Water Commission of a CalPine Vice President which is now a Texas company after their 2000 bankruptcy during California's failed experiment with deregulation that I am still paying for 21 years later. CalPine participated in Texas recently failed deregulated electric market that caused \$9,000 a kw-hr electric rates, the collapse of their grid and water system failures across Texas.

If Governor Newsom wants to grow jobs in Texas, he should run for office in Texas.

I believe the following 311 Jacobs Engineering employees working on the Delta Conveyance project are working in Texas. I got this information from a 02282020 Jacobs invoice via a public records request.

Texas has no world class expertise in electricity or water; Texas cannot run their own electrical grid and water infrastructure.

Thank you for reading my comment,
 Leland Frayseth

Dear Commissioners, Staff and the Public,

I am submitting the following public comment for the Public Testimony and Delta Conveyance items on the 19 Aug 2020 California Water Commission (CWC) meeting agenda.

Please watch the video at this link <https://youtu.be/4-BKBUXsjhE> and read the comment I sent to Governor Newsom via the webmail app on ca.gov.

Dear Governor Newsom,
2 Aug 2020

Please watch my public comment at this video link <https://youtu.be/4-BKBUXsjhE>

Kathryn Mallon, Executive Director of Delta Conveyance Design Authority, is asking for a budget of \$34 Million for FY20/21. They do not have the State Water Contractors on board paying for this project. According to public records I recently received, it is being paid for by us taxpayers, while California according to you is on a trajectory for a \$54 Billion deficit and 24% unemployment. As you know from the letter sent to you and referenced in my video State Water Contractors are asking the Delta Conveyance project to be shut down. Only 10 of 24 State Water Contractors have subscribed to the project, very little money has been collected from them and their largest contributor got 2 refunds.

Please send a hatchet man or hatchet woman from your Office of the Governor to fire Kathryn Mallon, all contractors working on the project, terminate and unwind all their contracts and negotiate with the landlord early termination of their office lease space which has not and will not be used. There are no California employees working on this project; they are out of state contractors and Jacobs Engineering, a Texas company that thumbed their nose at you when they moved operations from California to Texas.

Thank you,
Leland Frayseth, Concerned Citizen and Taxpayer
