Modernizing California's Water Infrastructure | Fall 2024

Delta Conveyance Project Community Benefits Program

Discussion Draft Implementation Plan and Guidelines Public Review

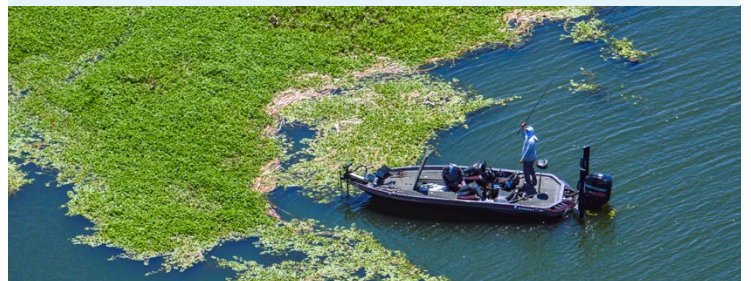

The Department of Water Resources (DWR) has released a Discussion Draft Implementation Plan and Guidelines for the Community Benefits Program (CBP), which provides more details and specifics about how the CBP will be implemented. DWR welcomes your feedback on this document, which was developed as a starting point to initiate the process of determining how the Community Benefits Program should be implemented.

The Discussion Draft Implementation Plan and Guidelines and an accompanying feedback form can be found online at:

<https://water.ca.gov/Programs/State-Water-Project/Delta-Conveyance/Community-Benefits-Program>

OR at library locations throughout the Delta.

DWR has set aside \$200 million for the CBP to invest in Delta communities through a grant fund for local projects, in addition to business development set-asides for job training and local business utilization, and potential "leave-behinds" like broadband or other infrastructure. The goal is to develop ways to identify, fund and implement local projects in collaboration with the local community that can provide tangible, lasting and valuable economic and social benefits to the residents, businesses, and organizations affected by the Delta Conveyance Project.

The document is available for review and input through March 1, 2025.
