

**NOTICE TO STATE WATER PROJECT CONTRACTORS**

**Date:** January 29, 2026

**Number:** 26-01

**Subject:** Increase of State Water Project 2026 Allocation to 30 Percent

**From:** Original signed by  
**John Yarbrough**  
**Deputy Director, State Water Project**  
**Department of Water Resources**

A series of atmospheric rivers that arrived mid-December and continued until early January provided for above average precipitation and high runoff, contributing to storage increases in California reservoirs. However, the series of storms were warm, snowpack accumulation has been below average, and continuing warm and dry weather in January has resulted in snowpack loss. Therefore, the Department of Water Resources (DWR) is increasing the State Water Project (SWP) allocation from 10 percent to 30 percent of most SWP contractors' requested Annual Table A Amounts for 2026, as shown in Attachment A – 2026 SWP Allocation. Considering the recent dry and warm conditions and associated forecasts, we will be carefully assessing and evaluating future allocation increases as hydrologic conditions become clearer.

To determine the available SWP water supplies, DWR considers various factors including SWP contractors' 2026 carryover supplies and demands, existing storage in SWP conservation facilities, estimates of future runoff, near-term and seasonal climate forecasts, SWP operational, contractual, and regulatory requirements set forth in the Federal Endangered Species Act and California Endangered Species Act, and water rights obligations under the State Water Resources Control Board's authority.

To schedule SWP water deliveries under this allocation, DWR will utilize the 30-percent water delivery schedules submitted by the SWP contractors in October 2025 (as part of initial requests) or as revised with any subsequent updates. If an SWP contractor foresees

any changes to their water delivery schedule, please communicate such changes to DWR in a timely manner.

If you have any questions or need additional information, please contact me at  
[John.Yarbrough@water.ca.gov](mailto:John.Yarbrough@water.ca.gov).

Attachment A: 2026 State Water Project Allocation, updated January 29, 2026
