

**Drought Resilience Interagency and Partners (DRIP) Collaborative
Roles and Responsibilities – Workshop #3**

Monday, August 24, 2026, 1pm – 3pm
Virtual

Workshop Purpose: Advance efforts to clarify roles and responsibilities for supporting domestic wells and state small water systems impacted by drought conditions and water quality challenges and discuss a proposed approach for identifying regional and statewide gaps.

Workshop Agenda

1. Welcome and Agenda Review [5 min]

Purpose: Review the purpose of the 3rd workshop as part of the Roles and Responsibilities (R&R) Initiative.

2. R&R Process and Progress to Date [10 min]

Purpose: Brief review of the white paper development process and key learnings to date from previous workshops and the DRIP Collaborative meetings discussions.

3. Counties Drought Resilience Plans (CDRPs) Review – Presentation [30 min]

Purpose: Review findings from initial review of completed CDRPs to inform identified roles and responsibilities to support domestic wells and State Small Water Systems

Short Break [5 min]

4. Working Session – Implications of CDRPs Review on Regional Capacity [45 min]

Purpose: Solicit input from participants on activities and programs in identified regions and what we can learn from the CDRPs review in specific regions.

- Breakout discussions and report out

5. Upcoming Activities [25 min]

Purpose: Share activities to advance the work on roles and responsibilities

- Review of available GSA Mitigation Plans
- Prepare a draft White Paper on Roles and Responsibilities
