Environmental Enhancement & Mitigation	Funding for projects that contribute to mitigation of the environmental effects of transportation facilities as follows: 1) urban forestry projects designed to offset vehicular emissions of carbon dioxide; 2) resource lands projects that provide for the acquisition or enhancement of resource lands to mitigate the loss of, or the detriment to, resource lands lying within or near the right-of-way acquired for transportation improvements; and 3) mitigation projects beyond the scope of the lead Agency responsible for assessing the environmental impact of the proposed transportation improvement.	Grant	Any state, local, federal, or 501c(3) nonprofit entity. The agency or entity is not required to be a transportation or highway related organization, but must be able to demonstrate adequate charter or enabling authority to carry out the type of project proposed. Two or more entities may participate in a project with one designated as the lead agency.	2018 grant cycle closed. Next solicitation in April 2019.	Maximum: \$1.0 million for acquisitions and generally \$500,000 for development projects	Transportation fees	Annual \$6.7 million appropriation	\$6.7 million	eemcoordinator@resources.ca.gov Contact: Carol Carter carol.carter@resources.ca.gov
Museum Grant Program	Funding to support small capital projects in museums, including the acquisition of real property or construction projects at museum facilities or venues. This may change in the next cycle after the public comment period.	Grant	Museums located in the State of California if they are either: 1) a public agency (federal, state, city, county, district, association of governments, joint powers, or federally-recognized Indian tribe); or 2) a nonprofit organization that has among its principal charitable purposes the preservation of historic or cultural resources for cultural, scientific, historic, educational, recreational, agricultural, or scenic opportunities. Sustainable Agriculture Land Conservation Program (Sustainable Agricultural Land Strategy and Outcome Grants)	The Sustainable Agricultural Lands Conservation Program (SALC) supports the state's greenhouse gas (GHG) emission goals by making strategic investments to protect agricultural lands. Sustainable Agricultural Land Strategy Plans — Short term grants to counties, cities, and partners, to inventory and evaluate which agricultural lands are most highly productive and critically threatened and develop locally appropriate strategies, programs and actions that ensure the long term protection of those lands.	Grant	Counties and/or cities as the lead applicant(s) in collaboration with other partners.	Annually. Applications due August 1, 2018.	Up to \$250,000 each	Greenhouse Gas Reduction Fund	Funding varies each year depending on GGRF auction proceeds	Anticipate awarding approximately \$1 million in 2018	California Department of Conservation Division of Land Resource Protection (916) 324-0850 http://www.conservation.ca.gov/dlrp/SALC/P/Pages/Index.aspx Strategic Growth Council (916) 322-2318 http://www.sgc.ca.gov/s_salcprogram.php
Sustainable Agriculture Land Conservation Program (Agricultural Conservation Easements)	The Sustainable Agricultural Lands Conservation Program (SALC) supports the state's greenhouse gas (GHG) emission goals by making strategic investments to protect agricultural lands. Agricultural Conservation Easements—Provide funding to leverage the protection of strategically located, highly productive, and critically threatened agricultural land, via the purchase of permanent agricultural conservation easements.	Grant	Local governments and private nonprofit (501(c)3) organizations which have among their defined purposes the conservation of agricultural lands.	Annually. Applications due August 1, 2018. Transformative Climate Communities Program - Planning Grants	The TCC is a California Climate Investment (CCI) program administered by the Strategic Growth Council (SGC) in partnership with the Department of Conservation (DOC) and other partnering State agencies. TCC empowers communities most impacted by pollution to choose their own goals, strategies, and projects to reduce greenhouse gas emissions and local air pollution in pursuit of data-driven milestones and measurable outcomes. The Program funds development and infrastructure projects at the neighborhood level to achieve major environmental, health, and economic benefits in California's most disadvantaged communities.	Grant	Stakeholders must form a Collaborative Stakeholder Structure. May include: community-based organizations, local governments, nonprofit organizations, philanthropic organizations and foundations, faith-based organizations, coalitions or associations of nonprofits, community development finance institutions, community development corporations, joint powers authorities, tribal governments. California Energy Commission									
Geothermal Resources Development Account (GRDA)	The funds from this account come from revenues paid by geothermal developers for leases on federal land in California. Practically all aspects of geothermal research, resource development, demonstration, commercialization, planning, environmental enhancement and impact mitigation are eligible for funding.	Grant	Private entities, including individuals and private for-profit organizations; local jurisdictions including cities, counties, school districts and special districts, regional planning agencies, and public utility districts; EXCEPTION: any public utility that generates more than 50MW of electricity for sale is not eligible to apply.	Solicitations are generally offered every 2 to 3 years. The next full solicitation is anticipated in late 2018. The most recent solicitation was offered in October 2016, with a Notice of Proposed Awards issued in March 2017.	There is no maximum or minimum award level established. Awards vary according to the application requests and the amount of funds available during a specific solicitation. Geothermal Resources Development Account (GRDA)	Effective January 1, 2017, Senate Bill 1074 (Hueso, Chapter 539, Statutes of 2016) added specific provisions for mineral recovery from geothermal brines to the Geothermal Grant and Loan Program eligible activities, and required the Energy Commission to release a special competitive grant solicitation by February 1, 2017 for projects under the new mineral recovery provisions. The grant solicitation was funded by \$2.5 million from 2016-17 American Recovery and Reinvestment Act of 2009 (ARRA) funds.	Grant	Private entities, including individuals and private for-profit organizations; local jurisdictions including cities, counties, school districts and special districts, regional planning agencies, and public utility districts; EXCEPTION: any public utility that generates more than 50MW of electricity for sale is not eligible to apply.	This was a one-time special solicitation offered pursuant to statute. The solicitation was released in February 2017, with the Notice of Proposed Awards issued in April 2017.	The maximum award was \$2.5 million, there was no minimum award level established.	2016-17 ARRA Funds (Federal Trust Funding)	\$2.5 million	\$0	www.energy.ca.gov/contracts/geothermal.html Contact: Elisabeth de Jong elisabeth.dejong@energy.ca.gov 916-654-4878
Electric Program Investment Charge (EPIC)	The Energy Commission is one of four administrators of energy innovation funded by the Electric Program Investment Charge. The other administrators are the state's three largest investor-owned utilities: Pacific Gas and Electric Company, San Diego Gas & Electric Company, and Southern California Edison Company. The Electric Program Investment Charge was created to fund public interest investments in clean energy technologies and approaches for the benefit of electricity ratepayers of California's three largest electric investor-owned utilities.	Grant	Private and public entities, educational facilities, research organizations, national laboratories.	A solicitation schedule has been posted on the Energy Commission Research page, and solicitations are continuously released throughout the year.	Funding will vary, but project funding levels are expected to range between \$250,000 and \$5 million.	The California Public Utilities Commission established the purposes and governance for the Electric Program Investment Charge in Decision 12-05-037 for Rulemaking 11-10-003 on May 24, 2012. Low Carbon Fuel Research and Development Program	Budget Act of 2016, authorized the Energy Commission to implement a Low Carbon Fuel Research and Development Program to support the advancement of low-carbon drop-in fuels production derived from California's biomass feedstock that can be produced to be fully compatible with existing infrastructure and vehicle technologies. The program initiated competitive awards to support RD&D projects focused in key areas that assists the State in meeting its petroleum reduction goals.	Grant	Public entities, educational facilities, private entities, research organizations, national laboratories.	Applications for the traditional grant funding opportunity were accepted in early 2017. Application cycle started August 2016 and ended October 2017. This is a one-time funding authority, and future opportunities are TBD.	Project funding levels range from \$600,000 to \$5,700,000	General Fund from Budget Act of 2016	None. All funding was awarded by February 2018.	None. Greenhouse Gas Reduction Fund (GGRF) Food Production Investment Program (FPIP)	The program focuses on accelerating the adoption of advanced energy efficiency and renewable energy technologies at California food processing plants, demonstrate their reliability and effectiveness and help California food processors achieve a low-carbon future. The grants provide partial funding for: Tier I: commercially available, energy efficient equipment that are drop-in replacements or additions to current systems that result in greater GHG emission reductions than standard equipment, and Tier II: cutting edge technologies that are emerging and not widely used in California but have been proven elsewhere to reduce GHG emissions.	Grant	California food processing facilities defined by North American Industry Classification System (NAICS) Codes 311 or 3121	A grant solicitation was released 6/29/18 (http://www.energy.ca.gov/contracts/other_research.html#GFO-18-901). Applications are due August 31, 2018. Additional periodic solicitations could be released in the future pending funds available. Forest Legacy Program (FLP)	The purpose of the Forest Legacy Program is to protect environmentally important forest land threatened with conversion to non-forest uses. Protection of forest through this program ensures California's forests continue to provide such benefits as sustainable timber production, wildlife habitat, recreation opportunities, watershed protection and open space. Intact forests also contribute significantly to the storage of carbon, and protection helps to avoid conversion to non-forest uses that would result in greenhouse gas emissions.	Grant	Landowners of working forest and rangelands, where the property is managed for the production of forest products and traditional forest uses are maintained.	State program: Solicitation is expected in Fall 2018. Federal program: Applications are due date by 4:00 PM on June 30 of each year. Land Acquisition Program	Statewide - This program acquires real property or rights in real property on behalf of the Department of Fish and Wildlife (CDFW) and also awards grants to other governmental entities or nonprofit organizations to acquire real property or rights in real property. All acquisitions are made on a "willing seller" basis pursuant to the appraised fair market value. The acquisition activities are carried out in conjunction with CDFW, which generally entails CDFW evaluating the biological values of the property through development of a Land Acquisition Evaluation (LAE, used for a single piece of property) or a Conceptual Area Protection Plan (CAPP, used for multiple properties). Once these evaluations are completed, they are submitted to CDFW's Regional Operations Committee for review and approval. If approved, they are sent to WCB with a recommendation to fund. Concurrently, the WCB meets with CDFW to evaluate and set acquisition priorities as new opportunities arise.
