

Flood Safety Stakeholder Technical Workshop

Sponsored by the Oroville Dam Citizens Advisory Commission

Friday, April 22, 2022
9:00 a.m. – 12:00 p.m.
Virtual Zoom Webinar

The purpose of the workshop is to allow the California Natural Resources Agency, Department of Water Resources and other government officials to speak directly to and hear directly from stakeholders about their goals, interests and concerns related to flood safety and downstream communities.

There will be time for community stakeholder questions and comments following each presentation, and there will be additional time for questions and comments from community stakeholders during a public comment period following the presentations.
