Project Location: All non-federally owned state and private timberland throughout the state.

This is to advise that the State Board of Forestry and Fire Protection adopted the above rulemaking on June 8, 2022, and made the following findings regarding the above action:

Such consideration was conducted to meet California Environmental Quality Act (CEQA) requirements for a project by using the functional equivalent certification to an EIR granted to the Board for its rulemaking process pursuant to PRC 21080.5.
2. The Board has not identified any adverse environmental effects as a result of the adopted rules.
3. The Board made other findings as part of its Final Statement of Reasons contained in the official administrative record.
