Present Land Use/Zoning/General Plan Designation:

Merced River and Floodplain - Agricultural and open space

Project Description: (please use a separate page if necessary)

The proposed project is maintenance of the Merced River Salmon Habitat Enhancement Project (MRSHEP) completed in 2002. DWR proposes to design, permit, and implement the following improvements to restore salmon spawning and rearing habitat in the floodplain and channel of the Robinson Reach of the Merced River:

- Stabilize seven hundred feet of eroded bank.
- Improve the capacity of 1,600 feet of channel by excavating deposited sediment and relocating a dead tree in the channel.
- Install a nine-hundred-foot shallow floodplain ditch to route low flows into the main river channel.
- Augment spawning habitat in two riffles in the downstream end of the reach.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with and "X".
If you have already sent your document to the agency please denote that with an "S".
